DETAILED ACTION

Response to Amendment

1. The amendment was received on May 1, 2007.
2. Claims 3-4, 7-13, 15-16, 27-29 and 31 have been cancelled.

Response to Arguments

3. Applicant's arguments, see Remarks on pages 6-11, filed on May 1, 2007 have been fully considered and are persuasive. The rejection has been withdrawn.

Allowable Subject Matter

4. Claims 1-2, 5-6, 14, 17-26 and 30 are allowed and renumbered from 1-16.
5. The following is an examiner's statement of reasons for allowance:

The instant invention defines a method of adding a watermark image to a composition. The claimed invention distinguishes over the prior art by the manner in which the method has comprised the steps. The prior art of record fails to teach a watermark service sending a first network communication to a client device, the first network communication including imaging service content representing a plurality of selectable watermark images; the watermark service receiving a second network communication from the client device, the second network communication including information at least indirectly related to the selection of a watermark image selected from the plurality of selectable watermark images, the watermark service operating on a first network server and having access to the plurality of watermark images; the watermark service accessing a target composition that includes one or more graphic references, the target composition identifying an arrangement of the one or more graphics referenced by the one or more graphic references in a document to be created, the target composition being stored on a second network server such that the watermark service accesses the second network server on which the target composition is stored to access the target composition; and generating a watermark composition comprising the one or more graphic references of the target composition and a

reference to the selected watermark image as disclosed in claim 1. Claims 17 and 25 are also allowed for the reasons of reciting the limitations that appear in claims 17 and 25.

These elements in combination with all of the other elements of the claims are not taught or fairly suggested in the prior art of record. The dependent claims are allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
